

STACK - TWO
CABINETS

*Stack two cabinets to
create one high cabinet*

BEFORE

AFTER

Fabuwood can stack two wall cabinets and attach to form a single tall cabinet.

Note: Finished and/or flush sides will incur a separate fee and the standard modification comes with a seam. Seamless sides will incur a separate fee.

REMOVE DRAWER

Create sink base cabinet

BEFORE

AFTER

To turn a base cabinet into a sink base, Fabuwood starts by removing the drawer box and slides of a standard base. The drawer front is then attached to the frame as a false drawer front.
