

## Construction Specifications

### Doors and Drawer Fronts:

Doors and drawer fronts on the Classic line are made of solid wood with a stain and glazed finish.

The 5 piece Wellington full overlay door has a solid  $\frac{5}{8}$ " thick raised center panel captured in a  $\frac{3}{4}$ " x  $2\frac{1}{2}$ " mortise and tenon frame. It has an applied moulding and is complemented with a 5 piece recessed panel drawer front.

### Hinges:

Compact Blumotion soft-close mechanism integrated in concealed six-way adjustable hinges. Please note: Lazy Susan, Easy Reach and Pie Cut cabinets do not feature the soft-close mechanism.

### Drawers:

The Classic line includes a  $\frac{5}{8}$ " thick solid wood dovetail drawer box with a  $\frac{3}{8}$ " plywood bottom, attached to Tandem plus Blumotion full extension concealed drawer runners.

### Shelving:

18mm ( $\frac{3}{4}$ ") thick veneered plywood with matching wood veneer edge banding is used on all wall and base cabinetry where applicable. The adjustable shelves are supported by a bronze plated shelf clip. All base cabinetry includes an 18" deep adjustable shelf.

### Backs, Tops and Bottoms:

$\frac{1}{2}$ " thick veneered wood with natural finished interiors, dovetailed side panels engineered to create a solid integrated cabinet box. Backs are stapled and screwed into place for additional support.

### Face Frame:

$\frac{3}{4}$ " x  $1\frac{1}{2}$ " solid wood stiles and rails jointed with glue and dowels. Back of face frames are dovetail grooved to accept side panels. The face frame is engineered so that the bottom of all base and wall cabinets are flushed with the top inside edge of the face frame creating a custom look.

### Toe Kick:

$\frac{3}{4}$ " x  $4\frac{1}{2}$ " solid wood toe kick is added to each assembled cabinet and finished to match along with the edges. Additional 8-foot lengths of  $\frac{1}{4}$ " plywood toe kicks are available for those who do not wish to see the joints between cabinets.

### Corner Blocks and Panel Beams:

All four corners of the base cabinets are secured with a wooden block screwed into each end panel at a 45° angle for the support and mounting of a countertop. In addition a panel beam is glued and fastened into a dovetail groove at the top of each base cabinet to ensure a straight fully integrated side.

## Construction Specifications

- 1 Solid wood door and draw front frames either doweled and glued or mortise and tenon, depending on door.
- 2 Compact Blumotion soft-close mechanism integrated in concealed six-way adjustable hinges.
- 3 5/8" solid wood dovetail drawer with a 3/8" plywood bottom with Tandem plus Blumotion full extension concealed drawer runners.
- 4 3" interior drawer height.
- 5 3/4" x 1 1/2" solid wood face frame.
- 6 1/2" veneered plywood back with a natural finished interior.
- 7 1/2" veneered plywood side panels dovetailed into face frame.
- 8 18mm (3/4") veneered plywood adjustable shelving with matching wood veneer edge banding.
- 9 3/4" x 4 1/2" solid wood toe kick finished to match exterior finish and attached to cabinet.
- 10 Wood corner blocks added for the support and mounting of a countertop.
- 11 1 1/2" x 1/2" plywood panel beams dovetailed into the side panels for strength and stability.
- 12 Base cabinet has 18" deep shelves.

## What exactly defines a Q12 cabinet?

To fully achieve Q12 eligibility, a cabinet must encompass twelve unique standards of quality. Read below to learn more about the twelve fundamental pillars that establish the Q12 qualification:

### Q1: QUALITY SOURCED LUMBER

This Q12 standard requires the use of carefully selected top-grade lumber, guaranteeing the finest and most dependable kitchen cabinets. To meet this requirement, Fabuwood has implemented a rigorous inspection process to assure that only first-class products, free of irregularities leave the plant.

### Q2: PRO TOUCH TECHNIQUES

To fully permeate a Q12 assessment, expert finishing methods are required to heavily influence first impressions and assure a lasting finish that is easy to maintain. Fabuwood's own pro touch technique uses renowned brands to create a durable, simple to clean cabinet that will hold its beauty for years.

### Q3: DOVETAIL CONSTRUCTION

Another important facet of Q12 is the required use of dovetail construction. A process that involves plywood side panels to perfectly interlock with a solid wood face frame through corresponding dovetail grooves. This highly resilient technique that Fabuwood introduced to the market guarantees that Q12 cabinet lines are secure, strong, and long-lasting.

### Q4: ANTI-WARP STRUCTURES

The anti-warp component involves the use of plywood panels comprised of rigid reinforcement beams. By applying the beams with a dovetail construction technique to secure all components, Fabuwood meets this standard ensuring a strong, reliable build that is resistant to distortion.

### Q5: WOODEN CORNER BLOCKS

For a cabinet to receive complete Q12 entitlement, wood must be used to help maintain structural integrity. To ensure a unified and organic design build, Fabuwood manufactures robust cabinet lines with wooden corner blocks, which keep the purity of an all-wood cohesive construction.

### Q6: SOLID BACK BUILDS

For superior structural longevity, this Q12 feature requires that the back of a cabinet is constructed from one piece of solid half-inch plywood. Fabuwood fulfills this standard by manufacturing cabinet backs with a strong and single piece of plywood to ensure durable strength and dimensional stability.

### Q7: FLUSH FIT FRAMES

In order to be considered Q12 compliant, a cabinet must have flush inner frames that provide an attractive appearance while giving added dimension to the internal area. Fabuwood's Q12 lines display prime craftsmanship with their flat surface top and bottom interior planes that result in convenient and practical usage.

### Q8: FINISHED INTERIORS

Treated and finished cabinet interiors are another significant feature of Q12 as they produce a clear statement of quality and attention to detail. As opposed to manufacturing with an applied lining, Fabuwood's vigorous top treatment techniques create a refined and durable design that is free of bubbling, peeling and chipping.

### Q9: SOFT-CLOSING ACTION

Another great characteristic of the Q12 qualification is the use of compact hinges with built-in, soft-close mechanism. Fabuwood uses the smooth-running capability and soft closing action of Blum's tandem plus blumotion hinges, providing an impeccably gentle and fluid cabinet function.

### Q10: FLUID FULL-EXTENSION

Cabinets built with smooth full-extension glides guarantee an enhanced running action that maximizes a cabinet's storage to its full capacity and ensures Q12 eligibility. Fabuwood manufactures Q12 cabinets with Blum's tandem plus runners and soft-closing technology, precisely utilizing space while also preventing damage and depreciation.

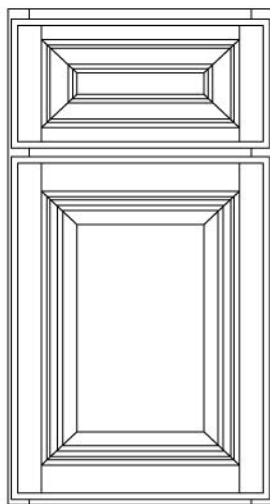

### Q11: EZ LEVEL DRAWER FRONTS

To ensure proper door alignment and function, a Q12 cabinet requires an effortless system utilizing a degree of mechanical precision for installing perfectly positioned drawer faces. Fabuwood innovates with a unique technique using circular discs that allow for easy 3/8" adjustments in any direction, resulting in a Q12 cabinet that achieves an aesthetically graceful balance.

### Q12: SEALED SIGNATURE

The final Q12 metric requires a thorough review at each manufacturing stage to ensure the completed product meets the provisions specified in the quality assurance system. Upon factory exit, a stamp of approval is given to show Fabuwood's commitment to quality control from the very first level of Q1 to the final Q12 stage, thus guaranteeing a superior and immaculate end product.

## Door Styles

### WELLINGTON

COLOR	FINISH	PRICE COLUMN
Cinnamon	Stain + Glaze	B
Ivory	Paint + Glaze	E

- Full overlay door
- Frames are solid wood  $\frac{3}{4}$ " thick and  $2\frac{1}{2}$ " wide
- Constructed with mortise and tenon joints
- Solid wood (Cinnamon) / MDF (Ivory) center panel is  $\frac{5}{8}$ " thick and captured in a frame with rubber spacers
- An **applied moulding** is added to the inside edge of the door frame
- 5 piece recessed panel drawer front matches door design and moulding detail
- Cabinet installed next to a wall or deeper cabinet requires a  $\frac{1}{4}$ " filler for full door opening

## Order Information

Orders are accepted from accounts that are in good standing. We recommend placing your orders online for faster processing and delivery.

Orders may be submitted 24 hours a day via one of the following methods:

- 1) Online: Go to: <https://ezpricing.fabuwood.com/> to access Fabuwood's EZ Pricing Program. Orders exported from 20/20 & ProKitchen in an .xml file format can be uploaded directly into the EZ Pricing Program.
- 2) Email: [orders@fabuwood.com](mailto:orders@fabuwood.com)
- 3) Fax: 201-432-6055

Forms are processed in the order they were received. Fabuwood has a strict policy not to accept verbal orders at any time. Fabuwood customer service representatives will need your account number each time you contact us. Please have your information on hand.

### ORDER PLACEMENT:

- To place an order with Fabuwood, please use our interactive forms, found in the Dealer's Corner on our website. 20/20 & ProKitchen order forms are also accepted provided that Fabuwood nomenclature is used.
- Orders should be submitted with a cover page. Cover pages must include:
  - 1) Name of dealership
  - 2) Name of client/designer
  - 3) Purchase order number
  - 4) Total amount of pages in order
- According to your requested shipping timeframes, Fabuwood schedules orders based on when they were submitted. Should you have more than one order, it is best to batch them together and submit them to Fabuwood simultaneously.
- Please make sure to specify your shipment method at the time of purchase.
- Should your order need to be shipped to a location that differs from your usual delivery address, it must be noted at time of purchase along with a contact name and phone number for the location. Additional charges will apply.
- On average, orders are ready to leave Fabuwood's warehouse within 7 business days from confirmed and signed orders. For rush orders, please contact your customer service representative to discuss express fulfillment options. Rush orders will incur additional fees.
- For orders containing modifications or custom finishing, please expect additional business days for completion.
- Prices listed in latest spec book reflect Fabuwood's list price. Please contact your customer service representative for multiplier and freight pricing.

### ORDER PROCESSING:

- Upon receipt of your order, your assigned customer service representative will enter your request as a quote and will subsequently send it back for your approval.
- Please take the time to thoroughly proofread all Fabuwood quotes.

Make sure all information, including quantity, color, style, shipment method, and pricing are correct. Once quotes have been signed and resubmitted, Fabuwood is not responsible for typos or mistakes made.

- Should the order require any corrections or revisions, email them to [orders@fabuwood.com](mailto:orders@fabuwood.com) or fax to: 201.432.6055. Quotes are valid for 30 days only.
- Once revisions have been submitted, Fabuwood will send you a revised quote for a final approval. When we receive your signature we can begin processing your order.
- By signing the quote, the dealer takes full responsibility for any and all errors on order forms.
- Once quotes are signed and returned you will receive an order confirmation email which will include your order's ESD. ESD's are determined by the date the order will ship out or be available for pickup. For orders entered online, you can select an ESD based on your schedule. However, once an ESD is selected, the order will not be ready prior to the selected date.
- Order pickups must be scheduled one business day in advance by no later than 3pm EST. To schedule a pickup, please contact the pickup department at 201-432-6555 ext #372.
- Orders not picked up after 4 weeks will be stored at the dealer's expense. No additional orders will be released until storage fees have been paid, or order is picked up. Storage fees will accrue on a monthly basis at the rate of \$50 per palette.
- If you would like your order to be ready later than the regular ESD, please make a note on your order to avoid storage fees.

### ORDER REVISION PROCEDURES:

- Once a quote has been approved, any revisions or cancellations will result in restocking fees. Also, modified/custom items cannot be revised or canceled once approved.
- Verbal cancellations or revisions are not accepted at any time.
- Merchandise that has left Fabuwood's facilities cannot be returned or exchanged.

### SHIPPING SHORTAGES & DAMAGES:

Order shortages such as missing items and/or any visible shipping damages must be noted on the shipping receipt and signed by both the driver and the recipient. It is then the customer's responsibility to notify Fabuwood of any such issues within 24 hours of accepting the delivery. Any orders accepted and signed by the customer without any such note, will be considered complete. All other shipping damages must be claimed by the customer within 5 days. All items that have been installed and/or are not in their original packaging cannot be claimed as damaged.

## 5 Year Limited Warranty

### COVERAGE OF WARRANTY

Fabuwood Cabinetry Corp ("Fabuwood") is pleased to provide the following limited warranty on all cabinets imported to and assembled and sold in the United States by Fabuwood. This warranty does not cover cabinets sold or shipped outside of the United States. This limited warranty is subject to all limitations, exclusions, disclaimers and procedures set forth herein. Fabuwood warrants to the original purchasing consumer that all cabinets purchased from Fabuwood will be free from all unnatural defects in material and workmanship in accordance with the Fabuwood quality standards sheet under normal residential use for 5 years from the date of the original purchase or as long as the original purchasing consumer owns the home in which such cabinets are installed, whichever is less. This warranty is non transferable to subsequent owners of the home.

### EXCLUSIONS

THIS WARRANTY SUPERSEDES ANY AND ALL PREVIOUS WARRANTIES BY FABUWOOD AND CONSTITUTES THE EXCLUSIVE REMEDY AGAINST FABUWOOD FOR ALL DEFECTS, DAMAGES AND WORKMANSHIP. THERE ARE NO IMPLIED WARRANTIES EXTENDING BEYOND THE TERMS OF THIS WARRANTY. FABUWOOD SHALL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL COSTS, EXPENSES OR DAMAGES. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE. IT IS POSSIBLE THAT ONE OR MORE OF THE LIMITATIONS AND EXCLUSIONS IN THIS WARRANTY MAY NOT APPLY TO YOU. THIS WARRANTY APPLIES ONLY TO FABUWOOD PRODUCTS PURCHASED ON OR AFTER MARCH 15, 2014

### LIMITATIONS

This warranty shall become void if the cabinets, cabinetwork, drawer slides or hinges are modified from its original form, improperly installed or damaged prior to or during the installation, or used in any way other than for residential purposes. This warranty covers only parts and materials of the cabinets as supplied by Fabuwood. This warranty does not cover any products used or installed in connection with cabinets, such as gas or electric appliances, countertops, or plumbing fixtures. This warranty does not apply to products installed in locations that do not maintain year-round environmental controls. This warranty shall not apply to damages caused by transportation, storage, dirt, chemicals, exposure to moisture, humidity or excessive heat or cold, nor does it cover defects arising from normal wear and tear, misuse, neglect, accidents, alterations, improper use or failure to maintain properly, house settling, or acts of God. No installer, retailer, distributor, agent or employee of Fabuwood has the authority to alter the obligations or limitations in this warranty.

### QUALITY STANDARDS

This warranty covers all damages and unnatural defects that are deemed as such under the current Fabuwood Quality Standards sheet. The current Fabuwood Quality Standards sheet is available for download in the dealer login section of the Fabuwood website ([www.fabuwood.com](http://www.fabuwood.com)), which should be reviewed at each time a claim for warranty service is being considered. Fabuwood reserves the right to modify or change the Fabuwood Quality Standards sheet at any time without notice.

### DISCLAIMERS

The following is a brief recap of some of the characteristics of the wood and finishes on the cabinets you are about to purchase. Please read them carefully. If some of these characteristics concern you, please choose something else. We bring these characteristics to your attention so you will realize that Fabuwood will not be held responsible for these variations in your cabinetry. It is important

to note that wood products claimed as defective are most often the result of atmospheric conditions such as excess moisture and humidity. Fabuwood strongly recommends testing the intended location of the products for such conditions prior to installation.

**WOOD AND COLOR VARIATIONS:** Wood is a product of nature, and since no two trees are alike, cabinets may vary in color, texture and grain. Wood characteristics naturally occurring such as variations in color, grain, mineral streaks, pinholes and knots are not considered defects. Color variations in cabinets are also a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets. This may result in overall color variations, but is not considered a defect.

**WOOD DOORS:** Wood by nature will undergo expansion and contraction movements year after year as it compensates and adjusts to ever changing atmospheric humidity and temperature conditions. It is very common for center panels on doors to shrink, expand or move during these transitions. Typically, the panel will return to its normal position within a year once it has adjusted to seasonal changes. It is for these same reasons that it is very common for doors to warp during these periods. Doors that are warped up to 1/4" are not considered defective. Note: It is advisable to check if the door was properly installed, since doors that appear warped are very often the result of improper installation.

**PAINTED FINISHES:** Plywood is a non-porous, smooth grained wood. Additionally, wood by nature undergoes periods of expansion and contraction while it adjusts to atmospheric conditions mentioned above. As such, finish stress lines may become visible on painted cabinets especially at the joints. Any such occurrence is not considered a defect.

**GLAZED FINISHES:** A glazed finish by character is an uneven finish. Some edges and profiles will have heavier hang up than others and glazing may vary cabinet to cabinet, door to drawer and item to item. This may result in overall color variations but is not considered a defect.

### WARRANTY PERFORMANCE

If a defect does occur within the terms and conditions of this warranty such defective part will be repaired or replaced by Fabuwood at its sole discretion. Fabuwood will not provide or pay for the cost of removal of defective product, transportation of defective, repaired or replaced product or installation of repaired or replaced product. Fabuwood will not be responsible for any shipping damages to the defective, replaced or repaired product. If defective item has been discontinued or is not available at the time, Fabuwood reserves the right to replace the item with the most similar item available in Fabuwood's inventory at that time. Fabuwood cannot guarantee that the finish of any replacement will exactly match the finish and appearance of the defective item due to the natural ageing process of the wood and finishes of the cabinets. Fabuwood may require at its discretion that the customer submit a clear photo, or that a company representative view the item being claimed before honoring this warranty.

### CLAIMS

To submit a claim covered under this warranty, the original proof of purchase or a copy must be provided. Please email all documents to [customerservice@fabuwood.com](mailto:customerservice@fabuwood.com).

### NOTE

Please do not send back any items to Fabuwood prior to receiving proper authorization from customer service. Fabuwood takes no responsibility on any items sent back to Fabuwood without proper return authorization.

---

## Dealer Product & Warranty Awareness Form

I have carefully read and understand the entire warranty provided by Fabuwood and have been provided the opportunity to ask questions of, and receive answers from Fabuwood concerning the terms and conditions set forth in the warranty, including, but not limited, to the extent of the coverage therein.

I hereby accept full responsibility (a) to truthfully and accurately represent Fabuwood, and (b) to make sure that anyone selling Fabuwood cabinets under my dealership will properly explain the terms and conditions to the consumer.

I understand that Fabuwood is not liable for any claims made by any consumer that are not covered under the warranty and that I will be solely responsible for any and all losses and expenses arising from such claims. I agree to indemnify, defend and hold Fabuwood harmless from and against such losses and expenses, including, but not limited to, reasonable attorney's fees and expenses.
