Bathroom Wall Panels | 23.62 x 94.48 inches

Kitchen Backsplash | 24 $\frac{13}{32}$ " x 22 $\frac{53}{64}$ " Panels also can be combined with full length panels.

100% Waterproof*

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes the joints. There's no need for water vapor barrier or other waterproof membrane behind the panels.

* To make the surface waterproof, make sure to seal all corners, joints, profiles and edges.

Please note: The colors may differ slightly from the actual product. The pattern on one panel may not necessarily match the pattern on the following panel, meaning that some panels will look the best with a grout line design. Please contact us if you are in doubt! Abbreviations for surface finishes:
HG = High Gloss, S = Silk, GEM = GEM stone, STN = Stone, EM = Extra Matt, RU = Rustic, C = Cement, SL = Slate, MET = Metal.

* GEM and C decors have a more markedly structure that demands cleaning with a lint-free cloth or melamine sponge.

** Kitchen Boards with MET surface must be handled with care to avoid scratches.
